

Erratum

The paper "Transaction Security System" by D. G. Abraham, G. M. Dolan, G. P. Double, and J. V. Stevens that appeared in the *IBM Systems Journal*, Vol. 30, No. 2, pages 206 through 229, omitted reference to the source of the signature verification algorithm, pen design, pen data acquisition and signal processing design, and signature recognition reliability data used in this system. The authors regret the omission and now cite the following as a key reference to this work:
